

## About Us

**South Coast Paper** is an independently-owned paper converter that produces copy/printing papers, folio, digital size paper, and other custom papers in standard and specialized packaging configurations. Not only does South Coast Paper convert paper, but we also serve as a consultant and distributor of private label, nationally branded, and specialty paper products.

Since our inception in 2000, South Coast Paper has steadily earned a reputation as one of the most respected names in the paper industry. We pride ourselves on our dependability to perform difficult jobs with fast turnaround as well as our innovative product development and versatility of services.

## Customers

As the paper converting industry changes, we remain on the forefront, using the latest technological advancements to meet and exceed customers' ever-changing needs. We are efficient in our operations and take care to maintain the high level of affordability and accessibility that our clients need and deserve.

- *We design product configurations for global paper manufacturers such as International Paper, Georgia Pacific, Boise, and Domtar.*
- *Contract Stationers such as Staples, Office Max, and Office Depot purchase and distribute South Coast Paper products nationally and in Canada.*
- *South Coast Paper maintains strong relationships with OEMs such as Xerox and Hewlett Packard as well as many independent office supply dealers and Fortune 1000 companies around the world.*
- *We also work closely with paper mills, printers, and corporate end users.*

## Diversity

We understand the importance of maintaining a high level of quality and trust while representing the diverse experiences, cultures, and needs of our customers. As a minority-owned business enterprise, we are confident that our competitive pricing, superior service, and quality products set us apart from our competitors and play an instrumental role in providing a beneficial relationship with our customers.

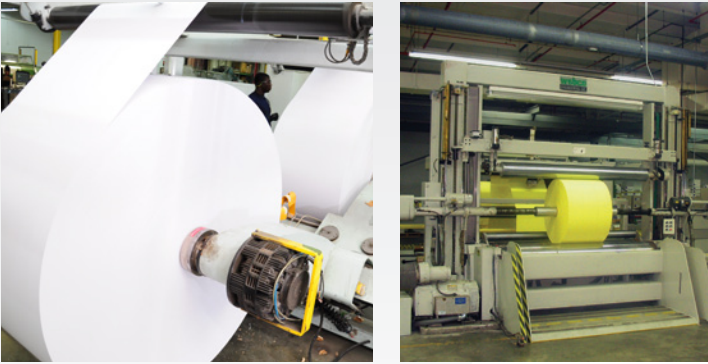

# Services

## 1 Paper Converting

South Coast Paper has the capabilities and quality standards of a full size paper mill finishing area with additional flexibility and efficiencies to convert according to customer's individual specifications.

As a converter, we source paper directly from paper mills and ship finished products to contract stationers, corporate end users, and various distribution partners. We sell and produce private label, nationally branded, and specialty paper products to a diversified customer base both domestically and internationally. Our trucking docks, rail access, and nearby shipping ports make our facility readily accessible for distributing products to any location.

South Coast Paper also specializes in slitting and rewinding paper. We have the capabilities to rewind everything from lightweight papers to board grades, 84" width to 60" diameter rolls on 3", 5" and 6" cores. Custom jobs are no problem. South Coast Paper can slit rolls 5" wide up to 84" wide.

## 2 Sales & Marketing

Global brands and contract stationers count on South Coast Paper to help market their brands by providing sales expertise and product knowledge to end users. South Coast Paper also helps corporate entities and contract stationers achieve diversity and sustainability objectives by playing an integral role in the supply chain.

## Certifications

South Coast Paper is certified to the SFI Certified Sourcing standard
